Dear Governor Cooper:

I cannot even begin to express the depth of my disappointment about your decision to allow the ACP to carry fracked gas through North Carolina. I can't understand why you would allow this since you know that natural gas is not a renewable energy and that fracking with associated leaks and consequences is hugely devastating to our earth's environment and all living things. Sadly, we do not need additional infrastructure for fracked gas to move us to sustainable energy. You know that the majority, if not all, of the natural gas piped through the ACP will reach the coast and be shipped out to China and other countries. This makes no sense. Supporting Solar Power and true Renewables is a much better investment for us financially and environmentally. If we cannot protect and sustain the planet that provides life, including good quality and quantity of safe water, nothing else matters. I am stunned by your decision to sign the permit to allow the ACP to move forward. But, I will not stand by and let this happen without a big fight against it. I am canceling my small monthly donation to "Roy Cooper" so that I can dedicate those funds to our effort to block the ACP forever.

DEAR GOVERNOR COOPER:
PLEASE DO NOT APPROVE THE ATLANTIC COAST PIPELINE. WE CANNOT AFFORD ANY FURTHER ENVIRONMENTAL DESTRUCTION AND EXPECT TO SURVIVE ON THIS PLANET.

PLEASE SUPPORT INVESTMENTS IN SOLAR POWER AND RENEWABLES!!!!

THANK YOU.
